

Dignitas is a leading education development organization.

We use an innovative training and coaching approach to empower schools and educators in marginalized communities to transform students' opportunities.

We imagine a world where schools are a vibrant place for all children to develop the skills and strength of character to thrive and succeed.

How does Dignitas make a difference?

At Dignitas, we empower educators to transform their schools through leadership development and instructional coaching so that their schools become vibrant places of learning where all children thrive and succeed.

The Challenge of COVID19

- Ensure well-being of Dignitas' School Leaders and their communities
- Ensure each School Leader is virtually connected to a group of their peers and a Dignitas Leadership Coach
- Facilitate remote training, coaching, and community.

The Challenge of COVID19

Children's well-being and learning threatened, moreso in marginalized communities

- 87% of the world's student population are out of school
- 60% of Nairobi's population are in urban informal settlements
- Only 37% of urban informal settlements population typically access government education

Our Response to COVID19

Many children living in urban informal settlements are reliant on school not just for learning; but for protection, nutrition and many other aspects of their well-being.

How can we ensure the ongoing support for children's learning and well-being?

Dignitas Leadership Coaches offer specialized training and coaching

Leaders of Learning gain a critical set of competencies, designed to equip them

Leaders of Learning virtually support clusters of households within their community

Children from the most marginalized communities have their well-being and learning protected so that they can continue to thrive and succeed.
