Case of Oracabessa High School, St. Mary

Phase 2: Partial/ Phased Re-Opening

I have been adjusting to #leadingthedigitalschool... All kinds of permutations and combinations of approaches are being considered at this time such as shift system and blended learning. For the first 20 days in September MOEYI will require us to diagnose students levels and real teaching is set to begin October. The system is in need of capital outlay to build out an effective LMS to facilitate online/blended learning.

”

Our teachers have been using various means to obtain students' feedback. This part is most problematic as most of our students do not have access to the Internet. We have also printed instructional materials and have placed them at strategic locations for students to pick up. We have even created a town cry both physical and digital and have produced flyers both paper based and electronic. I think we are managing...

”

Phase 3: Full Re-Opening

All Schools Re-Open

I have also developed a COVID-19 reopening framework and I am currently working on one for September's resumption for my school.

”
