1 - WHAT IS THE WISE PRIZE FOR EDUCATION?

Since 2009, WISE has highlighted over 100 global innovative solutions and individuals in education and, throughout the past 15 years, many of them have grown to become more impactful, have contributed to the work of WISE, have scaled to new regions, and more.

WISE now launches the next generation of the WISE Prize as one sole initiative, selecting a group of finalists to partake in this competition. WISE will provide support through capacity building and mentorship to organizations tackling new challenges ahead. This iteration of the WISE Prize will work with the chosen finalists over the span of one year to develop solutions that address key education challenges in artificial intelligence, the teaching of Arabic language and foundational literacies.

Each finalist will receive US\$100,000 - 150,000 and will benefit from tailored support and guidance in the lead-up to the WISE12 Summit in 2025, when the winning solution will be revealed. The WISE Prize for Education, with a prize of USD1 million, is a conditional grant in which WISE will obtain naming rights over the winning solutions.
